Students will be given the opportunity to integrate basic blindness and job readiness skills into real life settings through participation in new experiences they did not realize they could still actively be involved in; thus aiding in the adjustment to blindness, increasing confidence in the student and helping them become an active, more informed partner in their VR program, while they also learn how to manage the stress of their disability, so they may achieve and maintain optimal levels of independence, productivity, quality of life, and ultimately gainful employment.
