

The background features a large, light blue watermark of the Texas Workforce Commission logo. The logo is circular and contains the text "TEXAS WORKFORCE COMMISSION" around the perimeter. In the center, there is a five-pointed star surrounded by a wreath of olive and oak branches.

# Hiring Practices and Equal Employment Opportunity Report

**Fiscal Years 2021-2022**

New Hires and Workforce Composition for State  
Agencies and Institutions of Higher Education Analysis

## **A Message from the Executive Director**

Enclosed is the biennial Hiring Practices and Equal Employment Opportunity Report for Fiscal Years 2021-2022 prepared by the Texas Workforce Commission's Civil Rights Division in collaboration with Texas Comptroller of Public Accounts and Texas Demographic Center.

This report fulfills the reporting requirements of Texas Labor Code Sections 21.0035 (Statewide Civilian Workforce Composition), 21.504 (State Agencies Hiring Practices Report), and 21.553 (Equal Employment Opportunity Report). The report provides information by prescribed categories on, respectively, the composition of the statewide civilian workforce, new hires for state agencies and institutions of higher education, and the composition of state agencies and institutions of higher education.

I hope that you find the report valuable. Please do not hesitate to contact us should you have any questions.

Sincerely,

Edward Serna  
Executive Director  
Texas Workforce Commission

## **I. Purpose**

The purpose of the Hiring Practices and Equal Employment Opportunity Report is to provide demographic information to the Governor, the Legislature, and the Legislative Budget Board in compliance with Texas Labor Code Sections 21.0035, 21.504, and 21.553. This report combines the following statutory reporting requirements:

- Texas Labor Code Section 21.0035 requires a biennial report to the Governor and Legislature regarding the percentage of the statewide civilian workforce composed of Caucasian Americans, African Americans, Hispanic Americans, females, and males in the job categories of state agency administration, professional, technical, protective services, paraprofessional, administrative support, skilled craft, and service and maintenance.
- Texas Labor Code Section 21.504 requires an annual report to the Governor and Legislative Budget Board regarding the total number of historically underrepresented persons hired for each job category listed above by state agencies during the preceding state fiscal year.
- Texas Labor Code Section 21.553 requires a biennial report to the Legislature containing an analysis of EEO information for the preceding two fiscal years (obtained pursuant to Section 21.552) regarding new hires and the workforce composition of state agencies and institutions of higher education.

## **II. Methodology**

### **Statewide Civilian Workforce Percentage Composition per Texas Labor Code Sections 21.0035:**

1. Data are obtained from the 2021 1-Year American Community Survey (ACS) Public Use Microdata Sample (PUMS) file.
2. Initial tabulations were based on the eight job categories and four race/ethnicity categories used in the spreadsheet example provided by the Texas Workforce Commission (TWC). The job categories subsequently were modified to conform to Chapter 21 of the Texas Labor Code as described in note 3 below.
3. Job categories are derived from the Standard Occupational Classification-to-EEO crosswalk. These categories were modified to coincide with Chapter 21 of the Texas Labor Code as follows:
  - a. The State category "Paraprofessional" was not included because this category is not listed in the above referenced Census crosswalk. It is

- not possible to derive the "Paraprofessional" category from the available data.
- b. The State category "Protective Services" was extracted from the Census "Service Workers" to become a standalone category.
  - c. The State category "Skilled Craft Workers and Operatives" was created by combining the Census categories "Craft Workers" and "Operatives."
  - d. The State category "Service and Maintenance" was created by combining the Census categories "Laborers and Helpers" and "Service Workers" (less the "Protective Services" workers described in note 3(b) above).
4. As recommended per note 4 of the Census Bureau's SOC-to-EEO crosswalk document referenced in note 3 above, the following modification was made: Occupations 13-1011 through 13-2099 are cross walked from Category 1 (Officials and Managers) to Category 2 (Professionals).
  5. The three race/ethnicity groups (White alone not Hispanic; Black alone not Hispanic; and Hispanic); and sex (Male/Female) are mutually exclusive.
  6. The ACS PUMS data are based on a sample and are subject to sampling variability. For more information on the sample design, confidentiality, sampling and non-sampling errors and other characteristics of the ACS PUMS data, please refer to Census Bureau documentation: ([https://www2.census.gov/programs-surveys/acs/tech\\_docs/pums/accuracy/2021AccuracyPUMS.pdf](https://www2.census.gov/programs-surveys/acs/tech_docs/pums/accuracy/2021AccuracyPUMS.pdf)).

**New Hires and Workforce Composition for State Agencies and Institutions of Higher Education as per Texas Labor Code Section 21.504:**

The Civil Rights Division of TWC coordinated data collection for state agencies and institutions of higher education with the Office of the Comptroller.

The information on the total number of African Americans, Hispanic Americans, females, and other persons working for state agencies and institutions of higher education was extracted from data entered into the Uniform Statewide Payroll/Personnel System (USPS) or reported to the Office of the Comptroller Human Resources Information System (HRIS) or the Standardized Payroll/Personnel Reporting System (SPRS). The State Bar of Texas and the Texas Board of Law Examiners do not use these systems, so they reported their data directly to TWC.

This report contains new hires and workforce summaries for state agencies and institutions of higher education for Fiscal Years (FY) 2021 and 2022

(Attachments 1 through 6). The summaries show the combined total for new hires and the combined total workforce of state agencies and institutions of higher education. The summaries also show the percentages of African Americans, Hispanic Americans, and females in the job categories of state agency administration, professional, technical, administrative support, skilled craft, service and maintenance, protective services, and paraprofessional.

### **III. Results and Observations**

In the majority of job categories presented, African Americans (Chart 3) are better represented in state agencies than in the civilian workforce, with the exception of the Skilled Craft jobs category.

Hispanic Americans (Chart 4) in state agencies are well represented in proportion to their availability in the workforce in the Administrative Support, Professional, and Technician job categories.

Females (Chart 5) are better represented in state agencies relative to their availability in the workforce in most job categories. In the Skilled/Craft job category.

Each state agency and institution of higher education must conduct its own analysis of its current workforce, as required by Texas Labor Code Section 21.501, to develop a recruitment plan that addresses any potential underutilization in identified job categories, as required by Texas Labor Code Section 21.502.

### **IV. Acknowledgments**

TWC would like to thank the Comptroller of Public Accounts and the Office of the State Demographer.

### **V. Tables/Charts**

#### **Job Category Descriptions:**

The Officials and Administrators (A) category includes occupations requiring administrative and managerial personnel who set policies and direct individual departments. The Administrative Support (C) category includes all clerical-type work regardless of level of difficulty. The Professional (P) category includes occupations requiring either college graduation or experience of such kind and amount as to provide a comparable background. The Protective Services (R) category includes occupations in

which workers are entrusted with public safety, security, and protection from destructive forces. The Skilled Craft Workers (S) category includes occupations in which workers perform duties that result in or contribute to comfort, convenience, hygiene, or safety of the general public. The Technicians (T) category includes occupations requiring a combination of basic scientific knowledge and manual skill.

**Job Categories Derived from the Census Bureau's SOC-to-EEO Crosswalk:**

These categories were modified to coincide with Chapter 21 of the Texas Labor Code as follows:

- a) The State category "Paraprofessional" was not included because this category is not listed in the above referenced Census crosswalk. It is not possible to derive the "Paraprofessional" category from the available data.
- b) The State category "Protective Services" was extracted from the Census "Service Workers" to become a standalone category.
- c) The State category "Skilled Craft Workers" and "Operatives" was created by combining the Census categories "Craft Workers" and "Operatives".
- d) The State category "Service and Maintenance" was created by combining the Census categories "Laborers and Helpers" and "Service Workers" (less the "Protective Services" workers described in note (b) above).

**Note:** The term "Black" equates to "African American" for purposes of these tables. In addition, data from the State Bar of Texas and Board of Law Examiners was manually added to the data from the Comptroller's electronic reporting for purposes of the tables/charts in this Section V.
