- Outreach and Awareness
 - Updates to VR website pages have been made to emphasize availability of staff and continuation of services, including remote service exceptions. Updates are continuous including at least one video including ASL.
 - Social Media Platforms- follow TWC on LinkedIn, Facebook, Twitter, Instagram.
 - Texas HireAbility Campaign – VRD coordinated with TWC Communications to produce a video that features two former VR customers now successfully transitioned to employment.
- Solutions to Support Customer Access and Remote Service Delivery
 - Service Now - VRD is enhancing the ability for a customer to be able to complete an online self-referral for VR services by using a platform called Service Now.
 - Softphones-VRD purchased softphone licenses (part of Microsoft TEAMS software) to be installed on laptops of identified staff.
 - SARA –this is a pilot for an automated attendant system that enables ongoing communication between counselors and customers, and documents that communication in the customer’s case file.

- Office Locator – customer enters their zip code and the closest office populates.
- Virtual Career Fairs for Students with Disabilities - TWC-VR purchased four licenses for the Easy Virtual Fair (EVF) platform. This is available for hosting a variety of events including job and career fairs, transition events, training sessions, and other. VRD staff have conducted more than 30 events around the state since September.
- In-Person Service Delivery by VRD Staff
 - VR is working with the workforce boards around the state to provide some in-person services once they reopen.
 - VRD continue to work on protocols for staff to provide in-person services.
- TWC VR Budget Reports
 - FY 2020 total obligations (expended and encumbered) represent 79% of the total budget. Expenditures were significantly lower due to the COVID-19 pandemic, which resulted in a decrease in new customers and delayed services for existing customers. Due to COVID-19, the Summer Earn and Learn (SEAL) initiative was cancelled in FY 2020; however, the total obligated amount still reflects \$9.3M encumbered for this initiative.
 - The FY 2021 budget is 16% lower than last year's budget. The adjustment was made to ensure the budget more accurately aligns with projected expenditures. If client services expenditures are higher than projected, VRD will work with Finance to increase the budget. Client services expenditures will be affected by the degree of recovery in FY 2021 from the ongoing effects of COVID-19.
 - The FY2021 travel budget is almost half of last year's budget. VRD anticipates continued use of remote meeting technology for VRD staff and continued remote service delivery for VR customers. Travel will occur as necessary for in-person service delivery and is anticipated to pick up in the second half of the fiscal year.
- Questions

- Question from Paul Hunt, Have you considered getting Assistive Technology Unit (ATU) out of the Criss Cole Rehabilitation Center? There is no access to the ATU when CCRC is closed down. Also, not all customers that access ATU are residents of CCRC. Mrs. Fuller answered, we will definitely give that some thought.
- The full VR Division Director's Report was provided in the meeting binder.

Performance Update, Adam Leonard, TWC, Director of Division of Operational Insight

- Adam presented a PowerPoint presentation that was included in the meeting binder.
- Question Gennady Goldenshteyn,
 - Do you have any indicators of closures over total participation or closures over total cases?
 - What was the trends for earnings for DVR participants? Does that follow or how closely does it follow the trend for the earnings for the overall Texas Workforce? Was it faster, slower?
 - Response: Adam Leonard TWC is gathering information on labor market and career information group around median earnings and average earnings. Then we will be able to find data points that match up to the periods that we are doing and present those as comparatives.

Public Comment

- James Williams provided public comment
 - Kudos to TWC for the work on supported employment redesign. I appreciate the quarterly meetings and communication from Bobbie Hodges. I feel much more connected to rehab in Texas.
- Liana Davis provided public comment
 - First, Mrs. Fuller's goal to have at least one video on the TWC website that is in ASL. I would like to see that number be at least five or ten. Second, when you speak of customer first it

appears there is a lot of funds available for a person with a disability to get back to work. But, when I'm in a meeting with a counselor, funds seem to be a point of concern. It doesn't make the customer feel like the funds are actually there.

Presentation on Deaf and Hard of Hearing, Emily Robinson, MS, Texas Education Agency, Department of Special Education Programs

- Ms. Robinson provided information on Texas School for the Deaf and Hard of Hearing and day programs.

Presentation on VR Services for Customers Who are Deaf or Hard of Hearing, Jonas Schwartz, TWC VR Program Manager Target Populations
